Spoke to Ford. He is going gang busters on truckers tomorrow. Using Emergency Order—fines, seizing trucks, arrests, suspension of licences.. he is very hot to hammer them at a presser tomorrow at 10am. He will introduce legislation to make sure this can't happen again—and wants us to work on plan together to secure border/critical infrastructure going forward. He will then do a presser on Monday to diminish public health measures—but tomorrow is hard on enforcing against blockades.

Excellent
